ABOUT MIRAGE ENTERTAINMENT DESIGN

Founded in 1990 as a multi-faceted US based entertainment company, Mirage Entertainment Design, Inc. (Mirage) has evolved into a worldwide group of the industry's elites. Our team has top level skills in all disciplines including creative, design, planning, consultation, management, production, and operation with demonstrated success. Headquartered at the center of the entertainment world of Southern California, we maintain additional offices in mainland China, Taiwan and Dubai.

Meeting the increasing demands of the leisure & entertainment industry in countries all around the world, Mirage is a leading influence in first-class entertainment throughout the global marketplace. More than a standard production or design company, we merge imagination and international resources with the latest in performance technology to cover the full spectrum of entertainment possibilities. Our biggest qualification is in our references, for it includes world renowned clients such as Universal Studios, Disney, Six Flags, Warner Brothers, and the Olympics to name a few.

WHAT WE DO

Mirage Entertainment Design, Inc. is a full-service entertainment design, consultancy and management company with global reach. We have conceptualized, produced, and/or operated some of the largest world-class projects in the entertainment related industry, providing clients with personalized services from planning to deployment on a scalable basis, relative to the needs of your project (or any part thereof).

Our difference is what sets us apart. With our many years of broad based experience in conceptualizing, producing and operation, we know how all the pieces fit together to create an ultimate guest experience.

Design & Development:

We provide every (or any) aspect of project design and development from the blue sky stage through concept, schematic design, design development and into construction design along with construction management. Our experience includes creative services to some of the world's finest theme parks, family entertainment centers, specialty venues, retail, dining, and entertainment on three continents.

Shows & Attractions:

Mirage Entertainment Design is a full-scale production company, producing, directing, and operating live productions of all sizes and genres. Our award-winning projects include some of the biggest and finest live shows in the business, as well as iconic special attractions, such as themed entertainment/ shopping mall venues and children's amusement centers.

Festivals & Events:

Our projects also include seasonal, high-capacity festivals and event attractions at a variety of famous fairgrounds and special venues on a temporary or travelling basis.

Film & Media:

We provide professional film and media production for a variety of digital media platforms. Our team develops scripts, directs, produces, edits, animates and designs visual effects for feature films, commercials, 3D mapping content, video walls, 4D simulation theaters and rides.

COMPANY PHILOSOPHY

Mirage's reason for being is not simply to be the best, for that is only a measurement relative to what others do. Our quest is for the higher goal of perfection, in the products we make and in the entire conduct of our business. We choose this goal not from greed or vanity, but because we embrace the responsibility to provide our customers with absolute satisfaction. The most important thing to us is that our ideas, products, and services are the best they can be. We know this philosophy and commitment may prevent us from being the cheapest and perhaps the biggest, but our mission is to strive for perfection. We're proud to share this philosophy with our employees, customers and suppliers.

MIRAGE

PROJECT DEVELOPMENT PROCESS

Blue Sky:

A process of unlimited creative thinking at the outset of a new project, when all possibilities are open and the constraints of reality are not yet considered. This stage involves the most out-of-the-box thinking, pushing design and development skills to the maximum in the establishment of general goals and concepts, which can later be vetted and reeled back in conformance to what is actually possible, within the budget and resources available.

Concept Design:

The initial big picture or macro design stage of a new project, within the limits of reality. Concept design involves the initial rendering of sweeping ideas (and all their various possibilities) into a coherent plan, through artistic conceptual drawings, show treatments, and other pre-visualization techniques. This is the point at which a project evolves from an abstract idea to a visualized objective.

Schematic Design:

The next phase in project design, wherein architects and engineers prepare schematic diagrams giving a more concrete description of the various components and overall scale of the project in close consultation with the client.

Detailed Design:

The stage at which general designs are refined, with blueprints, specifications and estimates created. Detailed design will include outputs such as 2D and 3D models, along with P & ID's, cost build-up estimates, procurement plans etc. This phase is where the full cost of the project is identified.

Construction Documents/Consultation:

The final construction documents are reviewed and approved by local architects and engineers. Mirage Entertainment will serve as a consultant throughout this entire process.

Production:

Mirage executes all elements of production, including purchasing, logistics, casting, costume design, set construction, special effects installation, show directing, show control systems, soundtracks, lighting, rigging, and all other elements essential to the opening of a project.

Operation:

In the operational phase, Mirage provides ongoing quality control for shows and attractions. We provide production management, equipment maintenance, and operation of all elements of each production to ensure complete customer satisfaction throughout the duration of the contract.

CONSULTATION SERVICES

Mirage is also a premier retail, entertainment and leisure company, specializing in developing, constructing and operating high-capacity, mixed-use facilities that service the emerging dynamics of today's competitive market. Our principals have over 150 combined years of management experience in the retail, entertainment and leisure markets world-wide, and possess core experience with internationally recognized brands including Disney, Six Flags, Sea World, Warner Brothers and Universal Studios. We have completed assignments across North America, Europe, Middle East and Asia.

Mirage is a full-service consultancy firm to the leisure & entertainment industry, providing specialized services that include management services for amusement parks, water parks, resorts and high-traffic mixed-use developments. We can also provide professional solutions for business planning, market research & feasibility studies, technical & pre-opening services, project management, concept development & positioning, marketing & sales and facility management.

The Mirage team is enriched with the diverse, multi-cultural backgrounds of the leisure and entertainment industry, and will bring a proactive, people-oriented approach to any project as a project team member or leader. Mirage's key approach is to work closely with developers and project managers in a true spirit of partnership to insure that key issues that affect operations (both now and in the future) have solutions. All assignments are led by key members of Mirage, who share great passion for the quality of performance and a commitment to results.

CONCEPT DEVELOPMENT

Land Planning / Facility Design / Project Management

Facility Management / Owner Representation / Event Planning & Management

Procurement & Logistics / Customer Relations Management

FEASIBILITY STUDIES

DEMAND METHODOLOGY

Analytics complete the following scope of services, based on our understanding of the assignment.

Penetration Rate Methodology

A “capture rate” method. Takes total available market, and applies a set of penetration rates (a fractional share) to the market, based on observed penetration rates at attractions comparable to the Project.

Attendance = (for each market segment) market size x adjusted penetration rates.
The traditional attraction demand methodology.
Can use penetration rate comparables located outside of the market, in region or internationally.

Gravity Model

A “market share” method. Measures both attractiveness and distance of the Project relative to competitors, and assigns a probability of visitation based on overall distribution of the market to each.

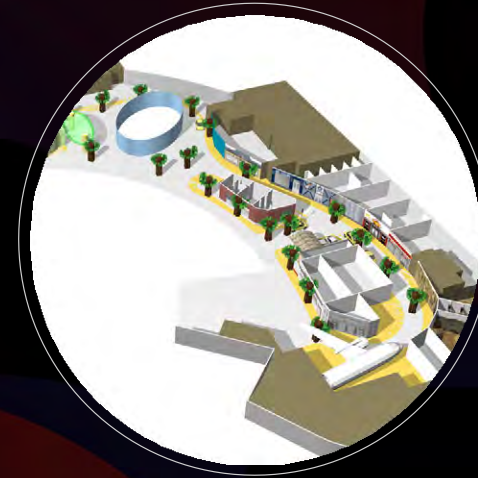

Attendance = (for each market segment) probability of visitation, given distance and existence of competitors x market size.

$$P_{ij} = \frac{A_j^\alpha D_{ij}^{-\beta}}{\sum_{j=1}^n A_j^\alpha D_{ij}^{-\beta}}$$

Probability of visitation, per segment = [“attractiveness” of each attraction x distance to each attraction] / [sum of all attractiveness & distance parameters]

Typically does not use comparables located outside of the market area.

MASTER PLANNING

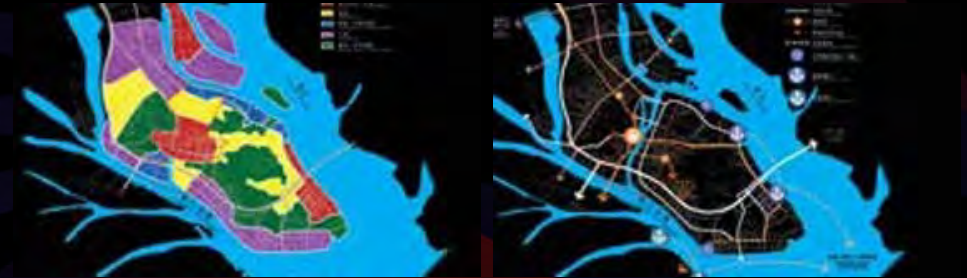

ENTERTAINMENT

NANSHA WATERFRONT MASTER PLAN CHINA

Nansha City of Bridges symbolizes the importance of this region, the Pearl River Delta, to the world. Centrally located between Guangzhou and Hong Kong, the Jiaomen River Central Area is at the heart of this region. Nansha, the center of the area, will serve to recognize this importance to the international community by bridging the best of the past into the future, the traditional with the modern and the individual to the environment.

We visualize creating a world renowned city, famous for its quality of life, hospitality, and beauty. On 4,000 acres with nine bridges existing on the central waterway, Nansha City of Bridges, connects to the future as the new city presents itself to the world. We are bridging the best of the past into the future, the traditional with the modern and the individual to the environment. Nansha has a FAR of 2.0, residential, civic, office, retail, entertainment, parks, and open space.

PARADISE VALLEY COACHELLA VALLEY, CA

A new community planned for the edge of Riverside County, Paradise Valley looks to balance smart growth and wildlife habitat in California's desert environment.

Paradise Valley represents the first true town center for the region, where a master planned development integrates economic opportunity, recreation and dedicated open space. Paradise Valley features thousands of new homes, an 800 acre (324 hectare) golf resort, shopping center, restaurants, businesses, community center, parks and a concert hall as well as an international golf resort with timeshare units and hotels. Plans also include a new business corridor along Interstate 10, as well as a business and technology college and primary and secondary schools covering 70 acres (28 hectares).

RIVER ROCK RESORT AND CASINO

Nestled naturally into the hillside, the proposed 600,000 - square foot resort will include: a casino, 260 guest rooms, luxury suites, meeting rooms, pool, spa and restaurants.

The resort's courtyards, gardens and buildings of varying heights will evoke images of a Tuscan village. The 75-acre plan includes approximately \$76,000,000 in infrastructure improvements to support the new facilities and restore creeks and natural habitats.

Our environmentally-sustainable plan clusters density within a bluff-top region, protecting and restoring the land to its pristine, native state. The resort overlooks the Alexander Valley from the tribal lands of the Dry Creek Rancheria Band of Pomo Indians, off Highway 128 between Healdsburg and Geyserville.

HA LONG BAY VIETNAM

Ha Long Bay, or Bay of the Descending Dragon, is often touted by proud Vietnamese as the world's eighth wonder. The picturesque bay has more than 3,000 limestone islets rising from the clear emerald water. Located off the north-eastern coast of Vietnam, 165 kilometers from Hanoi, Ha Long Bay Resort will take shape on one of the larger islands which boasts tropical plantations and two and a half kilometers of pristine beach nestled in a lush valley between two mountains. The resort's comprehensive master plan includes a three-hotel resort district, anchored by an 18 hole championship golf course with splendid views of the bay. The district's retail, restaurant and entertainment elements complement the resort's tropical architectural style, evoking both Asian and European influences.

IVAS AND THE VIBE AT BOLONG LAKE A COMPREHENSIVE EPICENTER OF INDUSTRY ENTERTAINMENT AND CREATIVITY

Bolong Lake in Tianjin, China is a massive, monorail-connected, entertainment-themed industrial park under a glass atrium. Combining creativity, technology and enterprise in a richly themed atmosphere, it contains a residential area, hi-tech movie/television studios, broadcasting facilities, a world class art school, a performing arts center, visual art galleries, entertainment attractions, retail outlets and unique restaurants to draw visitors and top creative talent to an integrated, all-encompassing commercial/entertainment district. With tenants such as Universal Studios, James Cameron, and the Jim Henson Company already signed up, this revolutionary cultural/industrial hub will make Bolong Lake an iconic landmark destination.

SANSHUI/LOTUS PARK SHAPING THE FUTURE OF INTERNATIONAL AMUSEMENT

Coming soon, the new Lotus Park in Foshan City (Sanshui District) of Guangdong, China is destined to be one of the most exciting and innovative theme parks in Asia. This 269,000 square meter, fantasy themed amusement park, built around a scenic, man-made lake, with an attached hotel resort and commercial district is currently under design by Mirage Entertainment as one of our premier projects.

3G PARK THE 3RD GENERATION OF ENTERTAINMENT DESTINATIONS

Entertainment, amusement parks, and destination attractions have evolved tremendously over the years. The 1st generation of amusement parks involved industrial age mechanics for simple thrills, featuring various attractions such as rides and games. The 2nd generation of jet age theme parks added a storyline, revolving around a central concept and theme. In the 3rd generation, guests will experience more than passive entertainment. We envision a multi-purposed park with endless adaptability to create the next model for the future. This will involve endlessly flexible venues, which can be easily converted to new themes and functions.

YUANZHOU PARK : DRAGON KINGS PARK

Yuan Zhou City Park will be divided into two areas to evoke the ancient "Double Dragon" legend of China. The western area will represent the "Luofu Mountain Dragon King" and the eastern area will represent the "Dongjiang Dragon King".

Together, they will provide an interconnected themed leisure facility with the "Wisdom Pearl" tower at the center.

PARADE FLOATS : A THEMATIC PROCESSIONAL CELEBRATION

Mirage Entertainment uses creative ingenuity to design parade floats and parade characters with unique structural design, decorations and special effects. Each float is specifically designed to bring a colorful and exciting look to every parade. Paying close attention to the details of various themes and IPs, our parade floats inspire imagination and creativity for audiences of all ages.

SHOWS

MIRAGE

PIRATES AHOY! THE BATTLE FOR MERMAID COVE

HONCUN AJU : CAPTURING THE LEGENDARY SPIRIT OF THE ANHUI WOMEN

A beautiful water show extravaganza performed nightly at a fabulous 2,000 seat outdoor theater in the scenic Yellow Mountains of Anhui, China, a destination long favored by regional artists and painters. Based on a traditional legend about the local women, this lyrical production is considered to be one of the most famous attractions in this entire resort area.

STRIKE BACK : MAKE-BELIEVE WARFARE ON A REAL AIRCRAFT CARRIER

“Strike Back” is a large-scale water stunt show, featuring an actual aircraft carrier (formerly of the Russian Navy) at the Binhai Aircraft Carrier Theme park in Tianjin, China. Besides the massive carrier vessel, this spectacular production involves 15 performers, 8 watercraft, 1 motor vehicle and a mini-submarine in an action-packed battle scenario.

BINHAI CAR SHOW : LIGHTNING FAST ACTION AND THUNDERING ENGINES

The stunt driving show at the Binhai Aircraft Carrier theme park in Tianjin, China, delivers fast action, explosive thrills and pulse-pounding excitement to live audiences on a daily basis. Featuring 5 high performance stunt cars, 2 specialized crash cars, 3 motorcycles, and a quad UTV, all handled by world class stunt drivers to the theme of a cops and crime drama, the Binhai Car Show is the largest production of its kind in Northeast Asia.

NEWBIE AGENT : A STUNT FILLED ACTION COMEDY

A highly reviewed action stunt comedy, where the audience itself is recruited to assist a newbie secret service agent in a wild plot to protect a visiting president from marauding terrorists.

Full of pulse-pounding actions, spectacular stunts and hilarious gags, it is a crowd-pleasing favorite at Discovery Kingdom in Dalian, China.

MONSTER STUNT SHOW : WHO WILL SAVE THE WORLD FROM THE EVIL PROFESSOR?

The show is power packed with action, fight scenes, drifting cars, stunt bikers, quad bikes and an amazing monster truck!

The show revolves around an evil professor who wants to use the power of an ancient relic to avenge his ancestors and rule the world. It is up to our heroes to keep the artifact from falling into the wrong hands.

ATTRACTIONS

Concept Design / Theming / Show Control / Production Design Walk
Through Attractions / Multi-Media Experiences

Immersive Experiences / Haunted Experiences

MIRAGE

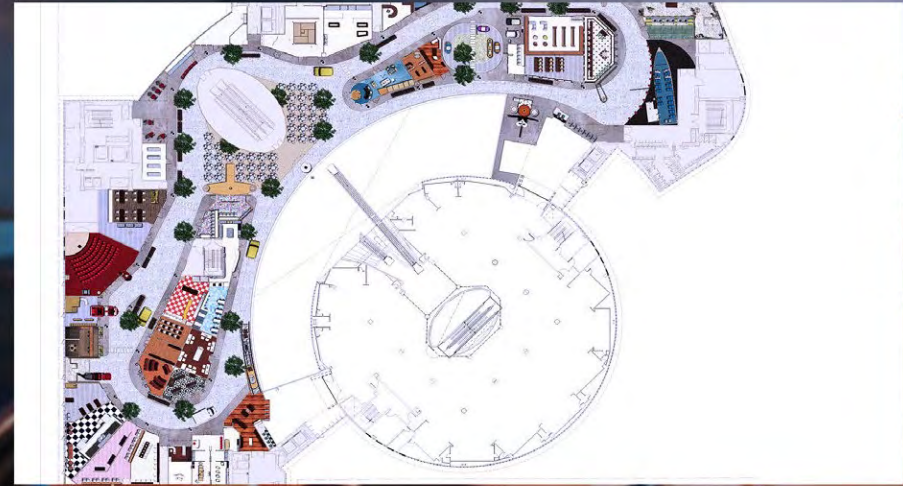

TIME ALLEY : A SURREAL JOURNEY BACK TO THE 1930S!

Welcome to Time Traveler Tim's Secret Laboratory! Journey back in time to the 1930s Old Shanghai through a magnificent multimedia and theatrical experience. This "time travel" attraction, located directly on The Bund in Shanghai, China, begins by taking guests through our "Escalator Time Tunnel." With the use of visual effects, lighting, set design, and live performers, guests will travel back to a distorted version of the iconic Old Shanghai!

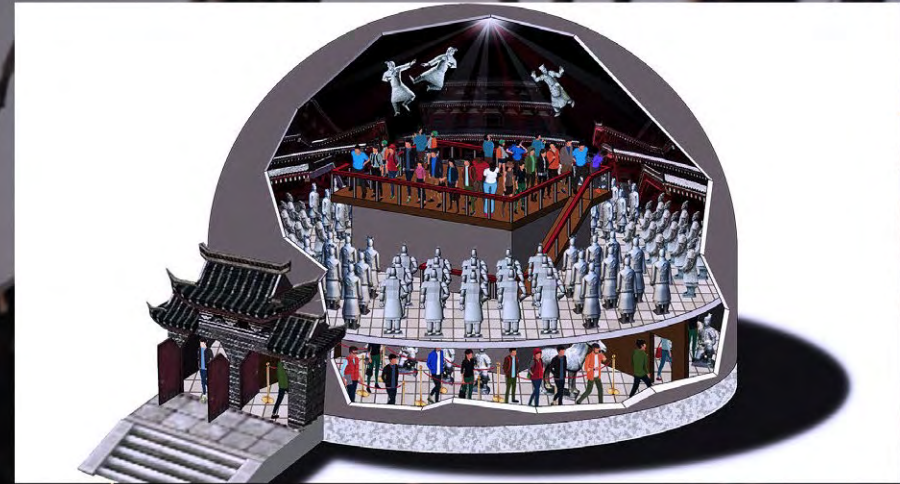

BABY BOSS : CHILDREN’ S “EDUTAINMENT” & OCCUPATIONAL ROLEPLAY

Baby Boss City is not just an indoor playground, children’s museum, or amusement park. The activities — or role-playing jobs — are highly structured affairs that occur at scheduled times throughout the day. Each job is led by one or more staff members and lasts for 20-35 minutes. The jobs themselves typically start with the staff helping the kids get into uniforms, and then explaining what the job entails. The kids role-play the part, and at the completion are paid in Baby Boss Bucks. Parents are spectators at the park, but their kids are the stars!

LEGEND OF THE TERRACOTTA WARRIORS : EXPERIENCE IT LIVE!

Enter the mysterious tomb of the Terracotta Warriors, where you will witness a battle of legendary stone guardians as their ancient statues come to life! As intense display of aerial stunts, 360 projection mapping, special effects, lighting, and other cutting-edge show elements create an immersive show spectacle like no other! This experience combines education, exhibition, entertainment, and retail.

HAUNTED ATTRACTIONS : SPOOKTACULAR EVENTS!

Mirage Entertainment Design, Inc. conceptualizes, designs, builds, and operates a variety of haunted attractions across the globe. Working with some of the most creative minds in the industry, Mirage combines unique themes with special effects, set design, live performers and sound designs, to create quality experiences. Featured attraction locations include SeaWorld in San Diego and Janfusan in Taipei, Taiwan.

FESTIVALS & EVENTS

Event Coordination / Market Analysis / Event Management

Creative Design / Operations

Fairs / Holiday Events / Food Festivals / Music Festivals

Conventions

MIRAGE

WINTER FESTIVAL : SOCAL' S ULTIMATE WINTER EXPERIENCE!

Winter Fest OC brings in a Winter wonderland featuring ice tubing down a 150 foot 8 lane ice slide, snow play with real snow blown in daily, a stroll through the festival of 2 million lights, ice skating on a 6,000 square foot ice rink over 30 carnival rides and games. Festive entertainment with many of the most popular cartoon characters, shows, local bands, seasonal food and beverage favorites, visits with Santa and so much more.

COMIC CON CHINA : A MULTI-GENRE ENTERTAINMENT AND COMIC CONVENTION

The world famous Comic Con will be making its way to China. Mirage Entertainment is currently developing and mobilizing to bring the unique platform of the Comic Con convention to the Asian Market. While much of the content and IPs that exist in the U.S. Comic Con will be a part of this new event, special attention will be paid to providing entertainment surrounding Asian pop culture.

FILM & MEDIA

MIRAGE

In addition to designing, producing, and operating live entertainment productions, Mirage produces projects from full-scale film and media production to 3D mapping and visual effects. Mirage produces full length feature films, including Saving Flora, which is currently in production. Starring David Arquette, Jenna Ortega, Tom Arnold, and Leonor Varela.

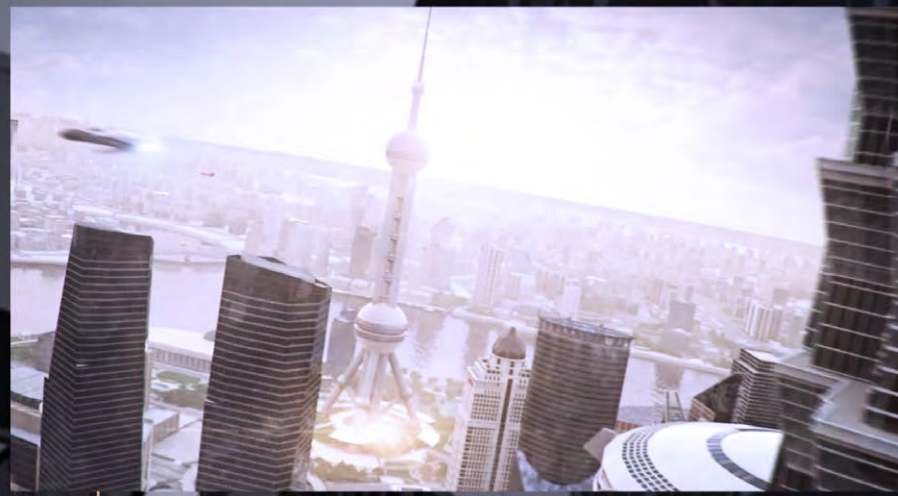

Additional media production projects include creative video content for public video boards, visual effects and production for live attractions, marketing videos and commercials.

SAVING FLORA : FEATURE FILM

Mirage Entertainment is producing an inspiring new film entitled Saving Flora. Flora is a circus elephant who can no longer perform her tricks. The night before she's scheduled to be euthanized, the circus owner's 14-year old daughter, Dawn, sneaks Flora from the circus. All that stands between them and the safety of an elephant preserve is two hundred kilometers of wilderness, one raging river, a mountain range, two big game hunters and the fear of not making it.
